

ANNOUNCEMENTS

An article entitled: "*ESS under construction*" was published in the CERN COURIER issue of September. In the article, ESSnuSB Design Study was described as "*an ambitious project*". The full article is available [here](#).

The two videos explaining the ESSnuSB project are now available on both the ESSnuSB & EuroNuNet websites:

- The video oriented towards the scientific community and financed by EuroNuNet COST action and the EU is available [here](#).
- The video oriented towards the general public and financed by the EU is available [here](#).

Project co-funded by the European Commission within the H2020 Framework Programme		
Dissemination level		
FU	Public	X
Deliverable number	D2.3	
Deliverable name	Beam losses and activation	
Type of document	Report	
Work Package	WP2: linac upgrade	
Lead Contractor	ESS [SE]	

The deliverable *D2.3 Beam losses and activation* was submitted on time the 30/09/2020. The document is available [here](#).

PROJECT MEETINGS

- **The ESSnuSB Workshop "*Towards a participation of the German physics community in a long-baseline neutrino project in Europe*", financed by the University of Hamburg and organised by Tamer Tolba the 8 & 9 October 2020, will be an [online meeting](#). The agenda of the event is accessible [here](#). Registrations are welcome and [free](#). Deadline: **08/10/2020**.**

After concertation, the MT decided that the [4th ESSnuSB Annual meeting](#) (16-19 November 2020) will be exclusively an **online** meeting and not a face-to-face one at CERN as planned. The decision was motivated by the fact that due to the CoVid19 situation the rules applied to organise a meeting at CERN were too restrictive and impractical.

COMMITTEE MEETINGS

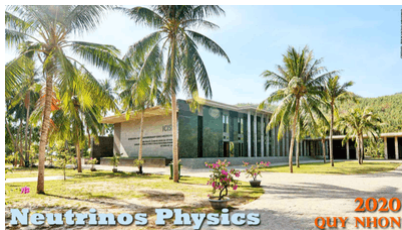

16th MT meeting - 28 August (10h30). Minutes are available [here](#).

13th EC meeting - 13 October (10h30).

13th DEB meeting - 27 October (10h30).

17th MT meeting - 29 October (15h30).

INTERNATIONAL CONFERENCES

16th Rencontres du Vietnam, 18-24 October 2020, Quy Nhon, Central Vietnam.
POSTPONED to 11-17 July 2021.
